YOUR TRAINER

Tatiana Protasova

Master PMU Trainer

Scar Restoration Trainer

Certified

Beauty by Lady D is Clinita's accredited PMU academy in Cyprus. With dual certification as both a Master PMU Trainer and Scar Restoration Trainer, every course is delivered to the highest Clinita Italy professional standard — scientifically grounded, practically focused and fully personalised to you.

IS THIS COURSE FOR YOU?

- **You are a beauty professional**
looking to add a high-demand, high-income PMU service to your existing skillset
- **You are a complete beginner**
with a passion for aesthetics and a serious desire to build a PMU career from scratch
- **You want real credentials**
not just a local certificate — Clinita is a recognised European professional standard
- **You want personalised learning**
not a classroom of 10 students — every session is built around you, at your pace
- **You are based in Cyprus**
and want to train locally without travelling to Greece, Italy or the UK

HOW IT WORKS

dates are arranged around your schedule

Powder Brows & Hairstrokes

4 Days · 1:1 Private · €1,600 · Full kit & machine included

Two complete brow techniques in one course — powder shading and fine hairstroke work.

WHAT YOU WILL LEARN

- **Skin Science & Anatomy**
How pigment behaves across skin types, undertones and conditions — the foundation of lasting results
- **Facial Mapping & Design**
Golden ratio, goniometric measurement, brow architecture and symmetry for every face shape
- **Colour Theory**
Clinita colour system — pigment selection, mixing, warm/cool correction and post-healing colour evolution
- **Machine Setup & Control**
Dermograph configuration, needle selection, speed, depth and pressure for both techniques
- **Powder Brow Technique**
Shading gradient, density control, pixel precision — building a soft, defined powder result
- **Hairstroke Technique**
Fine hair-like strokes — understanding natural hair direction, stroke pattern and skin reading
- **Hairstroke Needle Mastery**
Liner needle control for hairstrokes — pressure, angle, speed and avoiding over-working the skin
- **Hybrid Brow Approach**
Combining powder shading with hairstrokes for a natural, dimensional and fully personalised result
- **Healing & Aftercare**
Clinita aftercare protocol, healing stages, client home-care and touch-up timing for both techniques
- **Hygiene & Sterile Protocol**
Full Clinita sterile working method — field preparation and cross-contamination prevention
- **Client Consultation**
Contraindications, informed consent, skin assessment and professional expectation setting
- **Live Practice**
Silicone skin exercises followed by a supervised treatment on a live model covering both techniques

YOUR KIT & WHAT YOU LEAVE WITH

You leave with a full Clinita professional starter kit — every product, tool and consumable you need to begin offering Powder Brows & Hairstrokes professionally from day one. This includes your certified Clinita PMU machine, which is yours to keep. No additional purchases required to start working.

Lip Blush

3 Days · 1:1 Private · €1,300 · Full kit & machine included

Enhance, define and restore lips with a soft wash of colour — one of the fastest growing PMU services.

WHAT YOU WILL LEARN

- **Lip Anatomy & Skin Science**
Mucosal vs dry skin behaviour, pigment retention differences and the unique healing process of lip tissue
- **Lip Design & Symmetry**
Lip mapping, cupid's bow architecture, corrective reshaping and natural proportion for every mouth shape
- **Colour Theory for Lips**
Pigment selection for warm and cool tones, correcting discolouration and matching natural lip colour
- **Machine Technique for Lips**
Dermograph setup for delicate lip tissue — needle choice, working speed and pressure control
- **Lip Blush Technique**
Full procedure — outline, gradient fill, blush wash effect, feathered edge and building a luminous result
- **Healing & Aftercare**
Lip-specific healing stages, swelling management, colour loss during healing and touch-up protocol
- **Contraindications & Consultation**
Cold sore history, filler interactions, skin conditions, consent and managing client expectations
- **Corrective Work Introduction**
Basic principles of working over existing pigment, uneven colour and previous lip treatments
- **Live Practice**
Silicone skin exercises followed by a fully supervised lip blush treatment on a live model

YOUR KIT & WHAT YOU LEAVE WITH

You leave with a full Clinita professional starter kit — every product, tool and consumable you need to begin offering Lip Blush professionally from day one. This includes your certified Clinita PMU machine, which is yours to keep. No additional purchases required to start working.

ALSO INCLUDED IN YOUR COURSE

Official Clinita Certificate

Hologram-sealed · Registered in the Clinita international professional list

Clinita Course Book & Dossier

Complete scientific training materials to keep throughout your career

Pre-Course Online Webinars

MyClinita App · 3 Months Free

Eyeliner

1 Day · 1:1 Private · €1,200 · Full kit & machine included

Define the eyes with precision – permanent eyeliner is one of the most requested PMU treatments.

WHAT YOU WILL LEARN

- **Eye Anatomy & Safety**
Periocular anatomy, nerve mapping, proximity to the eye and contraindications specific to eyeliner
- **Eye Shape Analysis**
Assessing lid structure and eye shape to determine the most flattering liner placement
- **Liner Design & Mapping**
Precise line placement, thickness calibration, wing design and achieving symmetry between both eyes
- **Pigment Selection**
Black Pearl Pro and Deep Professional Black – properties, layering behaviour and longevity on different skin types
- **Machine Technique for Eyeliner**
Fine liner needle control, speed and depth in the sensitive periocular area – safely and precisely
- **Liner Styles**
Lash line enhancement, soft definition, defined liner – adapting the result to anatomy and preference
- **Healing & Aftercare**
Eyeliner healing stages, pigment softening, colour depth management and touch-up scheduling
- **Consultation & Contraindications**
Lash extension interactions, dry eye conditions, consent and full pre and post-care education
- **Live Practice**
Silicone skin exercises followed by a fully supervised eyeliner treatment on a live model
